

LEARNING TASK DESIGN PRINCIPLES

“AI is not the disruption. It is exposing that many of our tasks were never measuring thinking in the first place.”

MAKE PROCESS VISIBLE

Collect:

- Drafts
- Prompt logs
- Reflections
- Revision notes

ASSESS JUDGMENT OVER OUTPUT

AI can produce output.

It cannot yet replace:

- Epistemic discernment
- Ethical reasoning
- Adaptive thinking

SHORTEN THE PRODUCT, DEEPEN THE THINKING

Move from:

1 long polished essay

To:

Multiple visible thinking
checkpoints

REDIFINE CHEATING

Cheating becomes:

- Concealing AI use
- Failing to evaluate AI
- Misrepresenting authorship

Not:

- Using AI
